Annual Assessment:

Each year, homeschool students must complete an **annual assessment** to demonstrate academic progress. To meet this requirement, your child's assessment must either score above the 33rd percentile on a standardized test or show at least one year of academic growth compared to the previous year's test.

Parents or guardians listed on the **Individualized Home Instruction Plan (IHIP)** may write the narrative evaluation, purchase, administer, and score a commercially published norm-referenced achievement exam. Your child's annual assessment is due on June 30th.

Annual Assessment Options by Grade Level

Grades 7–8: Standardized testing is required **every other year**. In alternate years, you may submit a **written narrative** instead. For example, if your child takes a standardized test in grade 4, you may submit a written narrative in grade 5.

For students in grades K-12 **whose IESP indicates an alternate assessment**, the annual assessment may be the written narrative evaluation or a portfolio of examples of the child's educational achievement of standards compared with his/her peers.

If known, please indicate if written narrative or state approved standardized assessment will be used for the required annual assessment or inform us of your choice with the third-quarter report.
