MEDICALLY PRESCRIBED TREATMENT (NON-MEDICATION)

Provider Treatment Order Form | Office of School Health | School Year **2025–2026** Please return to School Nurse/School Based Health Center. Forms submitted after June 1st may delay processing for new school year.

PARENT/GUARDIAN READ, COMPLETE, AND SIGN: BY SIGNING BELOW, I AGREE TO THE FOLLOWING:

- 1. I consent to my child's medical supplies, equipment and prescribed treatments being stored and given at school based on directions from my child's health care practitioner.
- 2. I understand that:
 - I must give the school nurse/school based health center (SBHC) provider my child's medical supplies, equipment and treatments.
 - All supplies I give the school must be new, unopened, and in the original bottle or box. I will provide the school with current, unexpired supplies for my child's use during school days.
 - Supplies, equipment and treatments should be labeled with my child's name and date of birth.
 - I must immediately tell the school nurse/SBHC provider about any change in my child's treatments or the health care practitioner's instructions.
 - The Office of School Health (OSH) and its agents involved in providing the above health service(s) to my child are relying on the
 accuracy of the information in this form.
 - By signing this form, I authorize OSH to provide health services to my child. These services may include but are not limited to a clinical
 assessment or a physical exam by an OSH health care practitioner or nurse.
 - The treatment instructions/orders on this form expire at the end of my child's school year, which may include the summer session, or when I give the school nurse a new form (whichever is earlier). When this medication order expires, I will give my child's school nurse/ SBHC provider a new MAF written by my child's health care practitioner.
 - This form represents my consent and request for the medical services described on this form, and may be sent directly to OSH. It is not
 an agreement by OSH to provide the requested services. If OSH decides to provide these services, my child may also need a Section
 504 Accommodation Plan. This plan will be completed by the school.
 - For the purposes of providing care or treatment to my child, OSH may obtain any other information they think is needed about my child's medical condition, medication, or treatment. OSH may obtain this information from any health care practitioner, nurse, or pharmacist who has given my child health services.

Per the New York State Education Department, nurses are not permitted to administer premixed medications and feedings. Nurses may prepare and mix medications and feedings for administration via G-tube as ordered by the child's primary medical provider. FOR SELF-TREATMENT (INDEPENDENT STUDENTS ONLY):

I certify/confirm that my child has been fully trained and can perform treatments on his or her own. I consent to my child carrying, storing and giving him or herself, the treatments prescribed on this form in school and on trips. I am responsible for giving my child these supplies and equipment labeled as described above. I am also responsible for monitoring my child's treatments, and for all results of my child's self-treatment in school. The school nurse/SBHC provider will confirm my child's ability to perform treatments on his/her own. I also agree to give the school clearly labeled "back up" equipment or supplies in the event that my child is unable to self-treat.
